About

My purpose is to show people the beauty in themselves. I capture beautiful images using bright, diffused, natural lighting to showcase the beauty and emotion in the subjects as well as the surroundings.

Goal Statement

My goal is to make my work and the visions of my clients a harmonious reality with clear communication, preparation, and a fun experience. I work well with people and know how to make clients feel at ease in front of the camera so they look their best. I acquired my Certificate in Photographic Technology in May 2016. I graduated with an Associates Degree in Art and Science with High Honors in December of 2016. My work was displayed in the November 2016 issue of *The Wandering Photographer* magazine.
